## Using the Buzzer Gizmo with Playground for micro:bit

Requirements:
- Playground for micro:bit, with micro:bit and batteries installed
- Buzzer Gizmo
- 1 x Connection cable

Connections:
1. Switch Playground OFF
2. Plug connection cable into Gizmo and Pin 0 on Playground
3. Switch Playground ON

PXT Software Demo
This software will sound the buzzer briefly once per second.

And the same in MicroPython

```
from microbit import *
while True:
    pin0.write_digital(1)
    sleep(200)
    pin0.write_digital(0)
    sleep(800)
```
